36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours: **Burning of unburned fuel will continue but will be within the interior of the fire. Growth outside of the current containment lines is not expected.**

24 hours: **Burning of unburned fuel will continue but will be within the interior of the fire. Growth outside of the current containment lines is not expected.**

48 hours: **No expected fire growth.**

72 hours: **No expected fire growth.**

Anticipated after 72 hours: **No expected fire growth.**

37. Strategic Objectives (define planned end-state for incident):

Keep fire small to control costs of the fire by using direct attack. Protect natural resources especially commercial forest lands that are ready to be harvested.
